Healthy, e.g. antioxidant and antimicrobial activity

Good for pets,  
good for the  
planet

### Highly suited for

- Premium wet & dry pet food
- Veterinarian pet food

Typical inclusion level: 0,4 - 26%

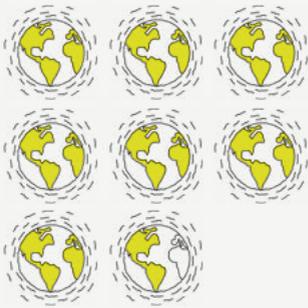

Composition	
Crude protein:	56% DM
Crude lipids:	15% DM
Moisture:	5%
Crude ash:	6%

Soy protein concentrate  
**7.5 kg CO<sub>2</sub> eq.**

7x lower CO<sub>2</sub> footprint

ProteinX has far less of an impact on global warming compared with soy protein concentrate which is commonly used in pet food.

7x less impact

ProteinX  
**1.149 kg CO<sub>2</sub> eq.**

Save 330 litres of water with ProteinX

330 litres of water can be saved by using one kilogram of ProteinX instead of the soy protein concentrate commonly used in pet food.

Soy protein concentrate  
**520L water use**

almost 3x less water use

ProteinX  
**190L water use**
